

Carcinoid NeuroEndocrine Tumour Society Canada
2009 Walk for Carcinoid Neuroendocrine Research!
Sunday June 14 at 11:00 at Waterloo Park

Mission Statement

Building towards a cure for NeuroEndocrine Tumours and Cancers through Research, Education, Awareness and Support.

Dear Friends,

Carcinoid NeuroEndocrine cancer is a rare cancer that often goes undiagnosed for many years. Therefore, CNETS Canada is looking for all your support to help us raise enough funds to support Carcinoid NeuroEndocrine Research.

On **Sunday June 14th, 2009**, members, family and friends of CNETS Canada are having a special walk around **Waterloo Park**, in Waterloo to raise money for Carcinoid NeuroEndocrine Cancer Research. We urgently need to do research to create better prospects for Carcinoid NeuroEndocrine Patients. All proceeds from the walk will fund Carcinoid NET research.

My personal goal is to raise \$2500.00 from my Walk.

Our ultimate goal is to raise \$60,000.00 for Carcinoid NeuroEndocrine research, which will be worked on by scientists at the Cancer Research Society. Once we raise \$60,000.00, we will connect with the Cancer Research Society, which will then decide, after consultation with CNETS Canada, on a research project dedicated to improving circumstances for Canadian Carcinoid NeuroEndocrine patients. **The Cancer Research Society will double CNETS Canada's contribution to \$120,000.00.**

I am participating in the CNETS Canada Walk-A-Thon, and am hoping you can **support me** with your sponsorship. Cheques can be made payable to CNETS Canada. If you prefer to contribute on-line, you may do so at www.cnetscanada.org by using the Donate Now button on the upper left side of each page. By pressing it, you will be taken to our donation page. All contributions are tax deductible. Official tax receipts will be emailed or mailed with complete and legible address information.

I have attached some pledge sheets if you would like to raise funds for my Walk

Thank you. With your support, there is HOPE.

Nancy De Sousa-Ehiorobo
